

The power structure of the University is represented in both the committee structure and in the administrative structure. The administrative structure is fairly clear as presented in the organizational chart. So far as committee structure is concerned, the power rests at the top, primarily in two committees, the Executive Policy Committee and the Academic Council. All matters pertaining to academics are processed through the Academic Affairs Committee to the Academic Council. Dr. Duns is the elected Chairman of the Academic Council, and Dr. Bevan is the Chairman of Academic Affairs Committee. All administrative matters are channeled to the Executive Policy Committee of the University. This committee is composed of the President, three Vice President, Deans, Provosts, the Director of the Library, and the President of the Student Body. Dr. Burns is Chairman of the Executive Policy Committee.

All committees and administrators of the University are ultimately responsible to the Board of Regents of the University. All policy changes recommended by the Executive Policy Committee and the Academic Council are referred to the Board of Regents through the President of the University.
